

Carousel Kids

Family-Style Learning Center
at The Continuum

6 weeks to
Preschool age

What Makes us unique?

- ❖ Carousel's Family-Style Learning Center offers a safe environment with a low child to teacher ratio, and siblings between the ages of 6 weeks to preschool age can attend our day care center together, so there is security in knowing that brothers and sisters are here learning and playing in the comfort of each other's company.
- ❖ Positive relationship building among children and teachers is a key part of our philosophy and daily practice. We teach cooperation, responsibility and important social and communication skills.
- ❖ We believe children learn best through discovery and play. Our educational philosophy is based on respect, responsibility, and community, allowing the children to explore and discover in a self-guided environment based on individual interests.
- ❖ Children are loved, nurtured and respected, creating a preschool daycare environment that encourages child development on the path to personal growth.
- ❖ Our Classrooms have a low group ratio with no more than 8 children in each classroom.

Ask us about the

Intergenerational program!

Children and seniors enjoy art, cooking exercise, story time, music, singing and other activities. These friendships transcend age and enrich the lives of children *and* seniors.
